K6 WORLDWIDE

Capability Statement

Rapid Workforce Deployment Partner

5–500	Days	90+	Global
Scalable crew size	Mobilization, not weeks	Trades & specialist roles	Deployment coverage

COMPANY OVERVIEW

K6 Worldwide is a rapid workforce deployment partner that staffs and executes rebuilding and construction projects in post-disaster, post-conflict and remote environments. We deliver vetted, supervised, self-sustaining crews under one point of accountability, covering sourcing, credential verification, mobilization, housing, per diem, site medical and force protection.

CORE CAPABILITIES

- **Skilled trades deployment:** plumbers, pipefitters, electricians, welders, carpenters, masons, roofers, HVAC, steel erectors, credential-verified before mobilization
- **Engineering & supervision:** civil, structural and MEP engineers, surveyors, estimators, foremen and project managers embedded with crews
- **Plant & logistics:** heavy equipment and crane operators, diesel mechanics, generator and power-systems technicians, drivers, procurement
- **Water & power infrastructure:** potable water, wastewater and off-grid power specialists for sites without municipal services
- **Site medical:** medics and nurses with TCCC and remote-medicine training
- **Force protection & security:** experienced personnel for post-conflict and high-threat sites, integrated with the site team
- **Workforce management:** travel, lodging, per diem, rotation scheduling and replacements for the life of the engagement

DIFFERENTIATORS

- Pre-screened global roster; crews identified, verified and moving within days of task order
- Every license, certification and reference checked; audit-ready documentation
- Personnel screened specifically for austere, remote and high-risk conditions
- Multilingual recruiting in 100+ languages; crews matched to host-nation requirements
- Background checks and post-offer medical clearance on every deployed worker
- Equal-opportunity, jurisdiction-aware hiring practices

IDEAL ENGAGEMENTS

- Subcontracted labor and specialist crews under prime contracts (FEMA, USAID, DoD, World Bank, UN agencies, NGOs)
- Surge workforce for disaster response and emergency repair
- Multi-year reconstruction in post-conflict regions
- Base / camp construction and sustainment
- Remote, off-grid sites needing self-sufficient crews

COMPLIANCE & HSE

- US LLC; SAM.gov registered (UEI / CAGE on request); GL, WC/EL and DBA insurance per task order
- FAR 52.222-50 CTIP compliance plan; employer-pays recruitment; FCPA / UKBA anti-corruption policy
- OFAC, EU and UN sanctions screening on all personnel and in-country partners
- HSE program aligned to OSHA 1926, ISO 45001 and EM 385-1-1; SSHO with every crew of 20+; EMR / TRIR on request
- Force protection aligned to ANSI/ASIS PSC.1 and ISO 18788; ICoC principles
